Dolphins Software - Volts Electrical Design Software

VOLTS™ is a multi-award winning electrical design software program featuring ease of use, complete reporting, ability to handle both simplistic and complex projects.

Your Complete Source for Automation Peripherals for Air Quality, Current Monitoring, Flow, Humidity, Leak Detection, Lighting Control, Network Integration / Data Acquisition, Power Monitoring, Pressure, Relaying, Surge Protection and Power Sourcing, Temperature, Test Equipment

Uninterruptible Power Supplies (UPS)

Power protection and management solutions for data center to industrial environments.

InfraStruXure® fully integrates power, cooling, and environmental management systems within a rack-optimized design.

World's only flexible and scalable chilled water distribution system for data centers.

The Cooling Distribution Unit provides centralized cooling balancing and distribution through seamless and flexible chilled water piping in the data center. The Cooling Distribution Unit and Chilled Water Whip system allows for quick deployment and enables customer infrastructure the flexibility to grow and change with minimal labor and installation costs.

Powersmiths pioneered the design and manufacture of harmonic correcting transformers and other power distribution related equipment. Powersmiths market leading power products include:

Energy Efficient Transformers

Smart Metering Systems

Energy and Power Management Systems

Power Quality and Reliability Products

Data Center Solutions

Power Distribution

www.russelectric.com

Russelectric is an international company that custom designs and builds power control systems and equipment to meet the stringent performance and reliability requirements of computer, communications, health care, and other critical facilities to meet the stringent performance and reliability requirements of computer, communications, health care, and other critical facilities.

Power Distribution, Inc.

Power Distribution Inc. is a leader in the power quality industry since 1979. As an innovator in technology solutions to power quality issues with several patented technologies, we have continually advanced our products in response to changing customer needs. Whether it's **power distribution, regulation, harmonic cancellation, switching or systems monitoring.**

Introduction

- ❖ ControlTEK Automation Solutions L.L.C. is a distributor for products with a market focus on Power Quality and Energy Management.
- ❖ ControlTEK Automation Solutions is owned by CF Limited Group L.L.C. Business Plan Targeted Markets
 - Building and Facilities Energy Management and Power Quality Systems
 - Rig Power, Control and Instrumentation Systems
 - Oil & Gas Production Refining / Petro-Chemical
 - Power Generation Energy Management / Power Quality
 - Pipeline Compression Automation Systems Security
- ❖ CF Limited Groups' companies and affiliates Engineering Design Teams have over 100 years of combined Electrical, Controls, Instrumentation Design, Software Development, Start-UP and System Integration experience with 2008 Systems Integration Sales greater than 10 Million Dollars.
- ❖ Manufacturers represented by CF Limited Group are Global Companies maintaining Domestic and International manufacturing facilities, and support for their products and services. Disclosure of Manufacturers' sales and earnings are considered proprietary. Upon formal request from customers represented manufacturers will provide required information for Vendor and Project Qualifications.
